

CAPTURING AND SUBMITTING VIDEO/S

Once you have submitted a video/s, you will receive an email. These emails are stored in your Right Way account at RightWayDriverEd.com under View Transcripts. This area also contains the email sent you previously with attached documents to assist you with the parent portion of the driving course.

WHAT TO DO

1. Let them watch you do the driving if they haven't already.
2. Let them practice what you showed them.
3. Once they are ready, for one hour have them perform the lesson.
4. During #3, capture them performing the lesson by videotaping them with your phone. You are going to show me it's them behind the wheel, then the road, then them, and then the road.
